Chuck-Ken Island Survival Game

Draw your Chuck-Ken. At the end of each round, fill in the arrow in green to show the Chuck-Ken survived to pass on its genes or fill in the 'X' in red to indicated it didn't survive. If your Chuck-Ken didn't survive you will draw a new Chuck-Ken but without the trait that caused it not to survive. If your Chuck-Ken survived, you do not need to redraw your Chuck-Ken. Good luck!
